Education

MA in Political Science and International Relations, Nazarbayev University — Graduated with Honors (top 10% of program) 2023 – 2025

- Thesis: *From Aspiration to Competence: The Portrait of the Young Civil Servant in Kazakhstan* — quantitative study of public service motivation, corruption perceptions and scientific literacy (N = 235); first Central Asian application of the Kim et al. (2013) PSM scale ($\alpha = .88$)

BA in Political Science and International Relations, Nazarbayev University 2019 – 2023

Research Interests

AI governance and public administration · Public trust in algorithmic decision-making · Public service motivation · Survey experiments · Central Asia and the post-Soviet space · Corruption

Professional Experience

Technical Writer — Improvado (AI-driven marketing analytics platform) 2025 – present

- Sole owner of client-facing documentation for the platform's agentic AI systems: AI agents, MCP (Model Context Protocol) integrations, and data governance tooling — daily hands-on work with production LLM-based systems

Junior Consultant — Dostyk Advisory, Kazakhstan Feb – Oct 2023

- Designed a corporate governance assessment index for JSC SPK Astana: semi-structured interviews with board members, document analysis, and an automated calculation and visualisation instrument later used in client projects; contributed to risk-management implementation and GIS-based environmental reporting (WWF, CEPF)

Academic Positions

Research Assistant — Prof. Denis de Crombrughe, Nazarbayev University 2024 – 2025

- Analysed Financial Times FDI and Kazakhstan Household Budget Survey datasets in Stata; contributed to research and conference papers with NU Graduate School of Business faculty

Classroom Assistant — Prof. D. Pisareva, Prof. A. Semenov, Nazarbayev University 2023 – 2024

- Mentored 100+ students and graded 200+ assignments across comparative politics, research methods, and contentious politics courses

Research in Progress

- Article based on Master's thesis, in preparation for the *NISPAcee Journal of Public Administration and Policy* (target: autumn 2026)
- *Patterns of Inequality and Poverty in Kazakhstan* (with the research group of Prof. de Crombrughe)

Independent Data Project

Football analytics platform (Python) 2025 – present

- End-to-end pipeline: automated data collection from sports APIs, predictive modelling of expected player performance, interactive Streamlit application, regression-tested validation scripts

Skills & Awards

Programming and analysis: Python, R, Stata, SQL · **Research tools:** Qualtrics, NVivo, ArcGIS · **Languages:** English (advanced), Russian (native), Kazakh (professional working proficiency)

CITI Certificate for the Humanities (RCR), 2024 · Dean's List, Nazarbayev University (five semesters, 2022–2024)
